

GENERAL INFORMATION

- According to the DPESS/UTH program of study, internship is compulsory for all undergraduate students during the last semester, as described in the course of "Specialty Practicum, MK1010".
- As stated by The General Committee of the Department, each student can start his/her internship after the completion of 120 credit units (ECTS) as a prerequisite.
- Course degree is given by the supervisor, by taking into account the evaluation of the employer, the valuation report of each student derived from the implementation of the internship and the comments of the employment supervisor responsible for student's practicum.
- Office hours established for better guidance and preparation of students prior their placement and practicum in sport employers, every Monday and Tuesday, 11: 30-13: 30. Practicum begins with contract signing.
